

## English

We will continue to have a daily English and phonics lesson to develop our reading and writing skills and explore a range of texts including stories such as 'Something Else' by Kathryn Cave and Jack and the Beanstalk. We will learn how to write instructions and will read and write poems about Winter. We will look at features of non-fiction texts when learning about plants. When writing we will learn how to extend our sentences using conjunctions like and, so, but and or. We will learn about plurals and revise adding -ing and -ed to words.

## Maths

We will continue to add and subtract within 20. We will use addition and subtraction to solve word problems. We will explore place value in numbers to 40. We will explore position, length and height. We are beginning to learn about multiplication and division.

## Science

This term we will be learning about food chains, sources of food and where our food comes from. We will learn about the needs of animals including exercise, leading a healthy lifestyle, food and water. In Science we will plant our own seeds and learn about plants and growing. As part of our Seasons work, we will explore Winter.

## Geography

In Geography we will learn about celebrations and festivals in different parts of the world.

## Mrs Parmentier/ Mrs Cunningham/Mrs McGinley Orange/Green rooms Spring 2018 Topic Festivals and Celebrations And Growing

## R.E.

In R.E we will find out about celebrations such as weddings, baptism and birthdays. We will explore Christian and Jewish celebrations and festivals such as Easter and Passover.

## P.E.

For the first half of the term our focus will be gymnastics. Next half term our focus is on dance, where children will explore and link movements in response to different stimuli.

Ball skills will take place each week with an outside provider.

## PSHE

This term we will be thinking about our friends and family, finding out that we are all different but that we can all still get along.

We will also think about bullying and recognise what is. We will talk about how bullying can affect feelings and what to do if we think we are being bullied.

## I.C.T.

We will become familiar with the keyboard and simple programmes. We will also look at other common technology such as the digital camera and programmable toys.

As we become more familiar with the internet, we will look at how to use technology safely and respectfully.

## Art

The children will use a wide range of materials creatively to design and create images in our topic about winter. We will also look at the work of the famous artist Van Gogh and create our own sunflowers using his style.

## Music

In music children will use their voices expressively and creatively by singing songs. They will also play tuned and untuned instruments.

## D.T.

Children will learn to design, make and evaluate when creating products for themselves. We will also learn about the basic principles of a healthy and varied diet and prepare a fruit kebab or a fruit salad.
