

English

We will continue to have a daily English and phonics lesson to develop our reading and writing skills and explore a range of texts including stories such as 'Something Else' by Kathryn Cave and 'My Friend the Weather Monster' by Steve Smallman. We will learn how to write instructions and will read and write poems about Space. We will look at features of non-fiction texts. When writing we will learn how to extend our sentences using conjunctions. We will learn about plurals and revise adding -ing and -ed to words.

Maths

We will practise adding and subtracting using calculations and word problems. We will focus on writing numerals to 40 and number words to 20. We will work with money and learn about the value of coins. We will also practise measuring accurately. We will record and compare measurements and will solve practical problems involving length and height.

Science

This term we will continue our tree study and observe and record the changes that occur. We will observe and describe weather associated with the seasons. We will also think about the ways we adapt to different kinds of weather. We will identify and name a variety of everyday materials and will practically explore their properties.

Geography/History

In Geography, we will identify seasonal and daily weather patterns in the UK. We will compare the UK with places we have visited on holiday. In History, we will learn about the lives of significant individuals such as Neil Armstrong.

Whatever the Weather
&
Somewhere in Space

RE

In RE we will find out about celebrations such as the Hindu festival of Holi and explore Christian and Jewish celebrations such as Easter and Passover. We will also learn how and why some stories are important in religion and what we can learn from them.

PE

This term in PE our focus is gymnastics. We will explore basic movements such as jumping, sliding and rolling. We will also learn how to use the apparatus safely.

Ball skills will take place each Wednesday with Natalie.

PSHE

This term we will be thinking about our friends, and finding out that we are all different but that we can all still get along. We will also be learning about how we can make positive choices. We will also think about belonging and what this means to us.

Computing

We will continue to develop our keyboard skills and use simple programmes. We will also learn about algorithms and how they are implemented as programs on digital devices. As we become more familiar with the internet, we will look at how to use technology safely and respectfully.

Art

As part of our work on Seasons, the children will create Winter pictures. The children will also design their own Aliens in our topic about Space.

Music

In Music, children will use their voices expressively and creatively by singing songs. They will also listen to a range of high quality live and recorded music such as The Planet Suite by Gustav Holst.

DT

Children will design, make and evaluate their own rocket in our topic about Space.
